
RIVER JET UNIVERSITY | WHITE WATER TRAINING

ONE ON ONE INSTRUCTION

LAUNCH TO TAKEOUT – OCEAN TO UPPER RIVER REACHES

- Low Speed Maneuvering, power management
- White Water Navigation
- Environmental Responsibilities, fuel economy, etc.
- River Etiquette - awareness - sensitivity to other river users, anticipation, etc.
- Rules of the Road, boating conduct
- Reading river water and understanding currents
- Tour Boat scheduling and expectations (if applicable)
- Wild, Scenic and Recreational section diversities
- Upstream Vs. Downstream, shallow water situations
- Logistics and changes, varying river levels
- All Safety aspects and equipment, communications
- Weather, terrain, wind, fog, sun glare, etc.
- Workings - basics of Jet Boats, loading, carrying capacities, balance, bow pivot, mechanical, trouble shooting, miscellaneous variables

INQUIRE ABOUT TRAINING SCHEDULE RECOMMENDATIONS AND FEES

A three day minimum is suggested for safe service and Jet Boat operation.

Following an established schedule, I can also be available for consulting any time for summer 'refresher courses' – lower water changes, conditions and updates, etc.
